In my quick check it looks like it is not in management review and we need a new human health risk assessment; let me know how you would like me to prioritize this (I can assign it to the person on hair on fire call for this week....).

When we spoke with back in January, it sounded like EPA had everything they needed to finish this up. We appreciate s updates, and I understand that we have just granted another 2 week extension. I also understand from an ACC meeting with Ex. 8 Personal Privacy (PP) on Monday that PMN reviews are not on a hold or pause. Is there a reason why this PMN continues to be held up? Can we do anything or provide any additional information to complete this review? Thank you both for your attention to this. Best regards, Kari Kari Mavian Senior Government Affairs Director Dow
